

3 Takeaways on AI

Alberto Bartoli

Direttore Machine Learning Lab, Università di Trieste

Takeaway #1: AI is here to stay

Just one of many examples: NDA analysis

- *20 US lawyers were asked to review 5 NDAs and highlight potential issues*
- *AI by a specialized firm did the same*
- *Results compared to ground truth by senior top lawyers*
- *20 US lawyers: 85% accuracy, 92 minutes*
- *AI: **95% accuracy, 26 seconds***

Takeaway #2: Beware of ready-to-use solutions!

You cannot just "buy" these innovations

- *AI technology is this **magical thing**, right? It's useful for so many different things!*
- *But the reality is, AI technology **needs a lot of customization** for your business context.*

Andrew Ng

Stanford, Google, Coursera, Baidu...

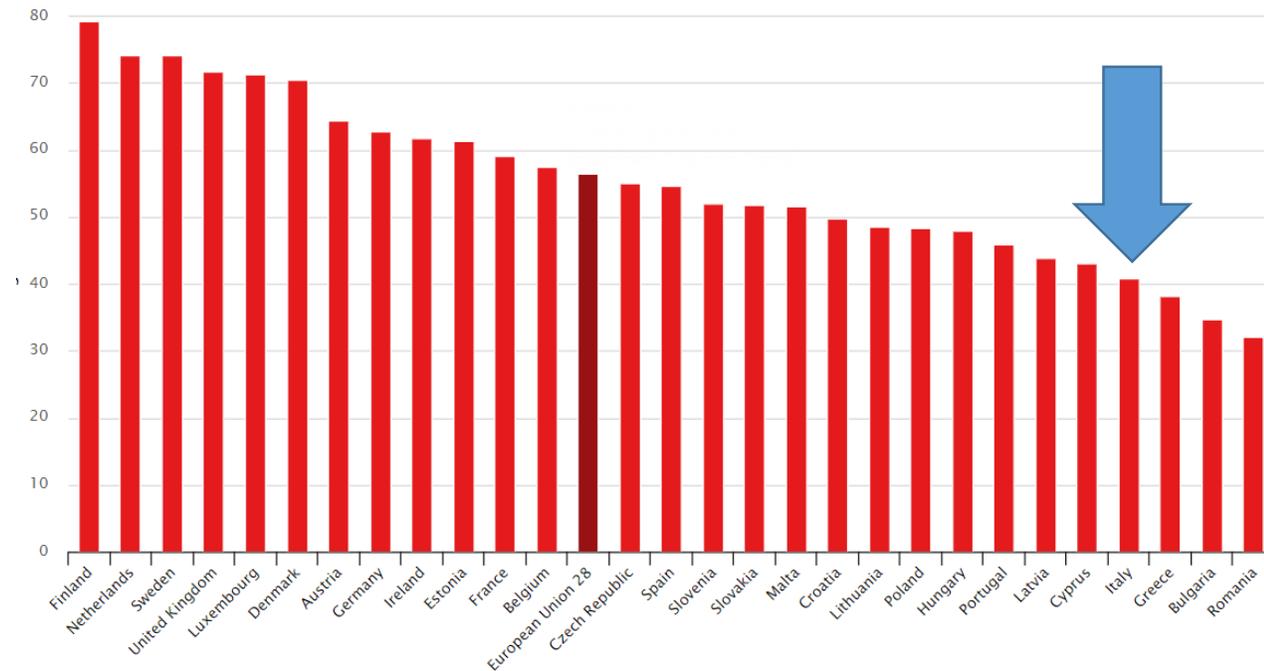

(equivalente a Cristiano Ronaldo + Messi)

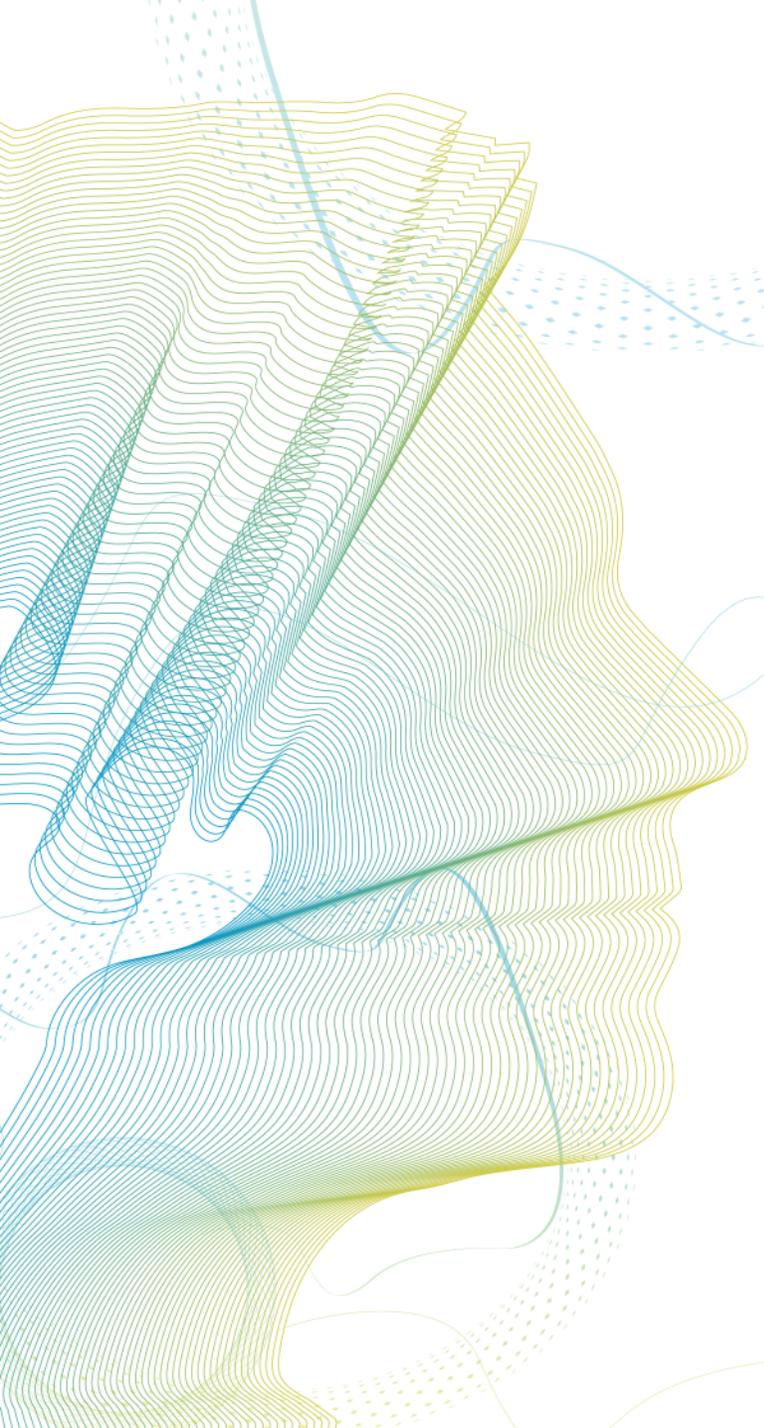

Takeaway #3: Italy is bound to have serious problems

Where are people and skills?

- *Digital Economy and Society Index - European Communities*
- *Human Capital: 25 out of 28*
- *Human Capital (2014): 24 out of 28*
