Cyber Threat Intelligence, cos'è e come aiuta la sicurezza di una organizzazione

Simone Coltellese

Cyber Security and Fraud Analyst

Cosa è la Cyber Threat Intelligence?

“Intelligence is information that is received or collected to answer specific questions on who, what, where, when, how and why...”

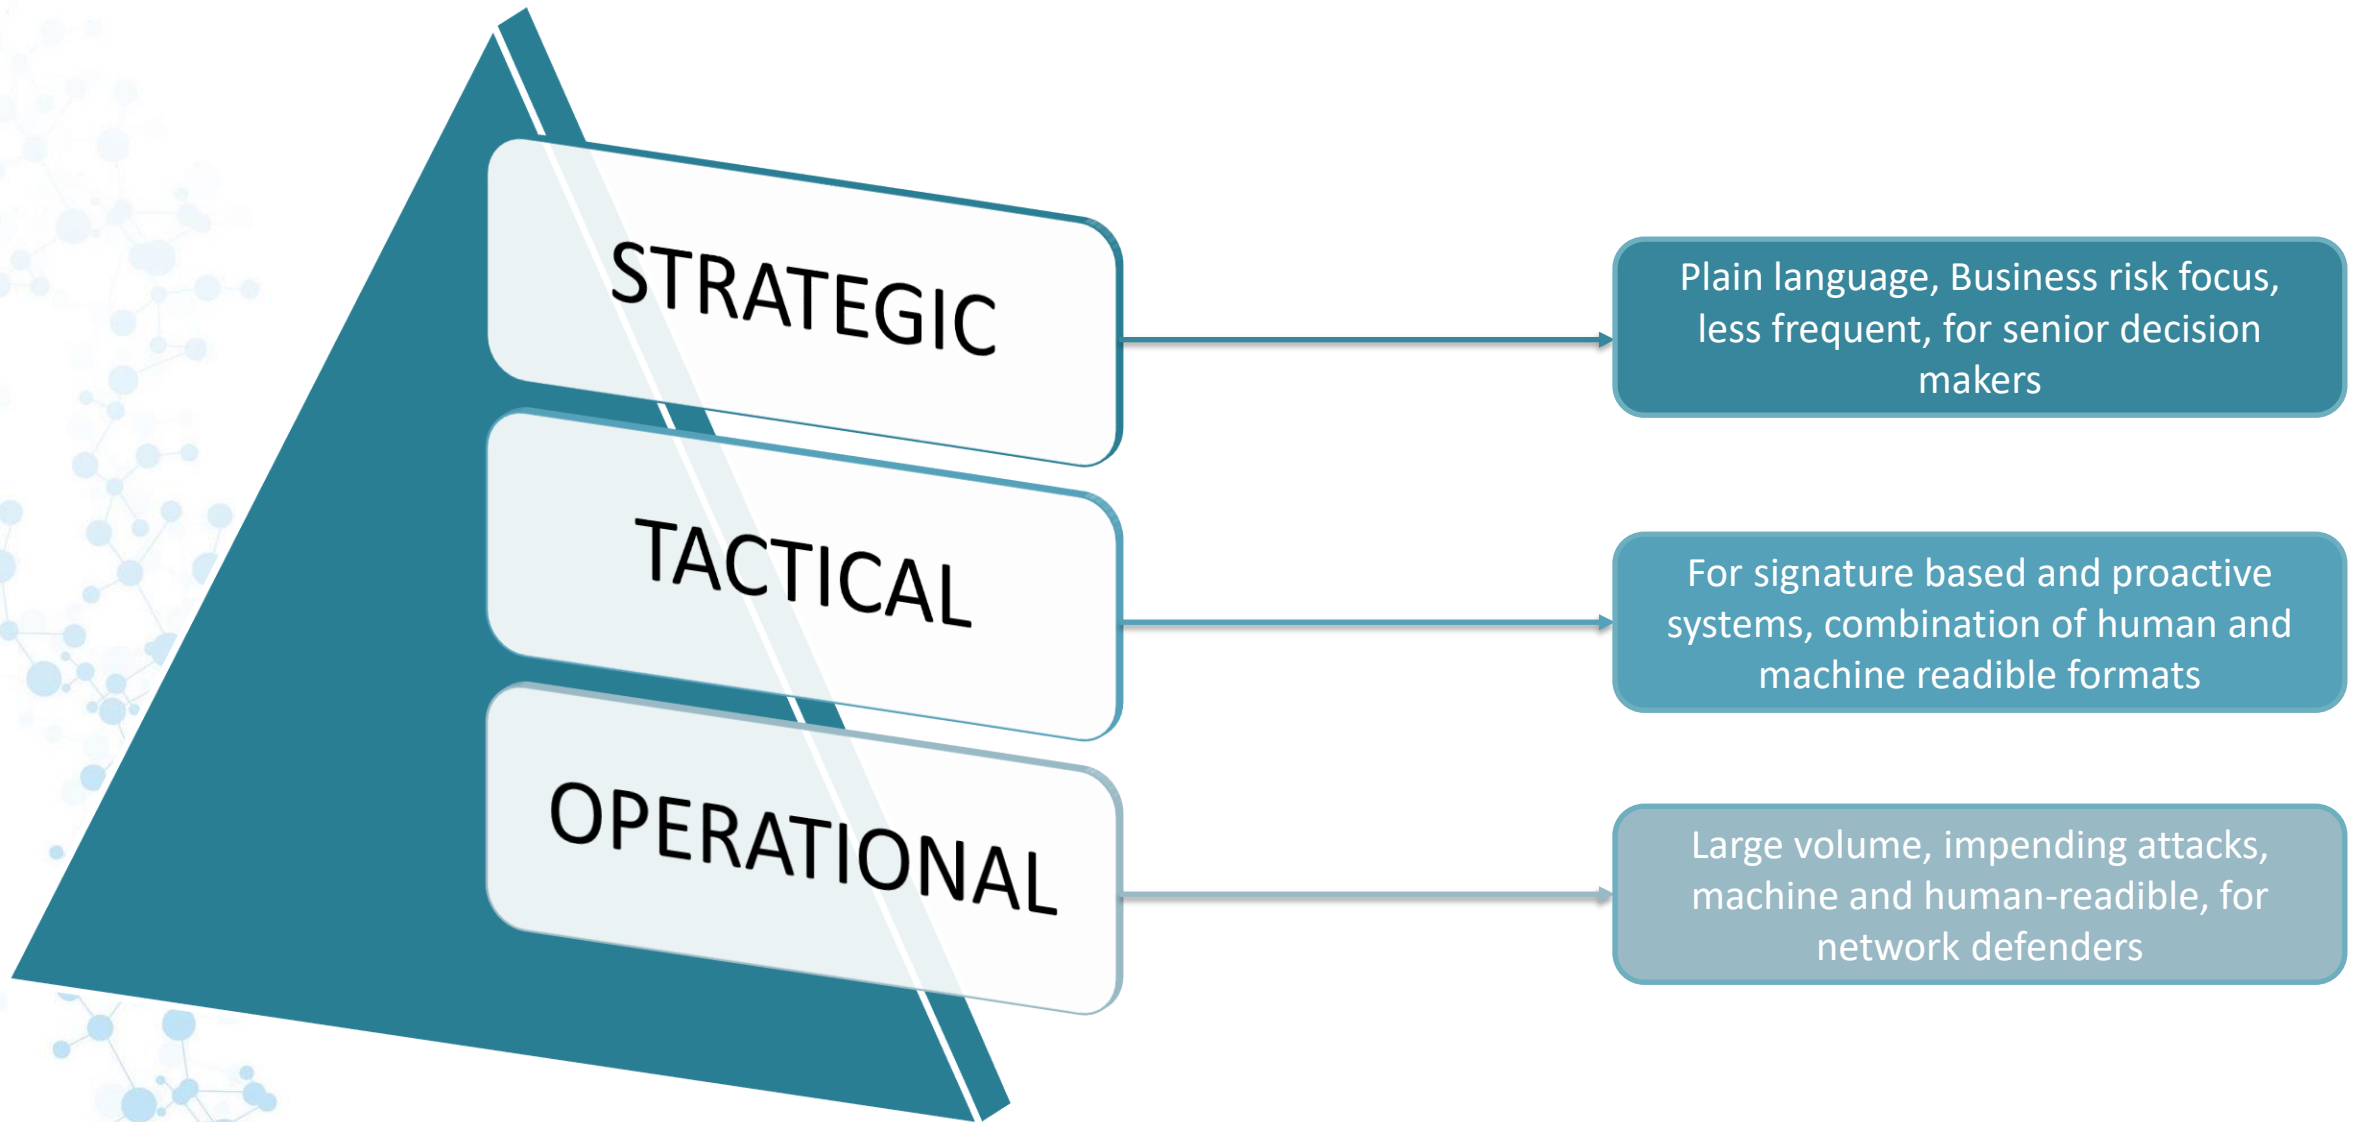

UK National Crime Agency (NCA)

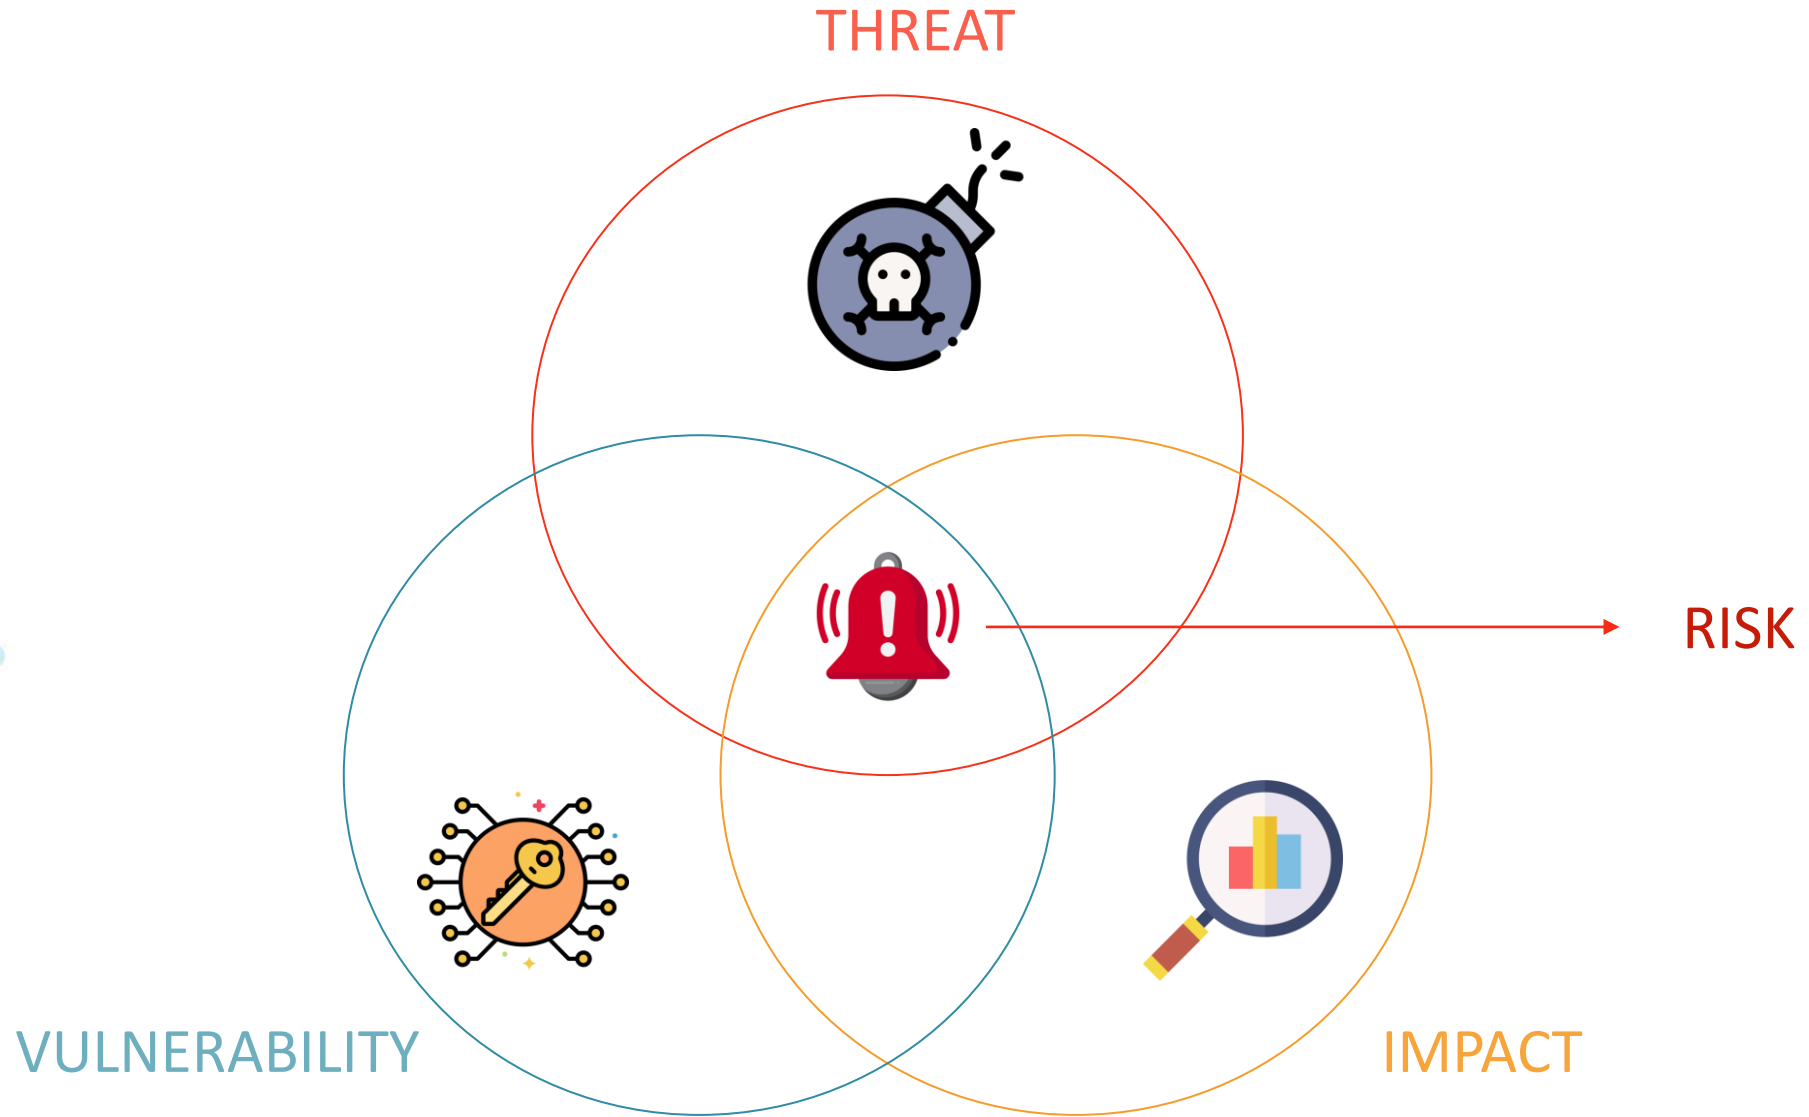

“Intelligence is knowledge and foreknowledge of the world around us – the prelude to decision and action...”

US Central Intelligence Agency (CIA)

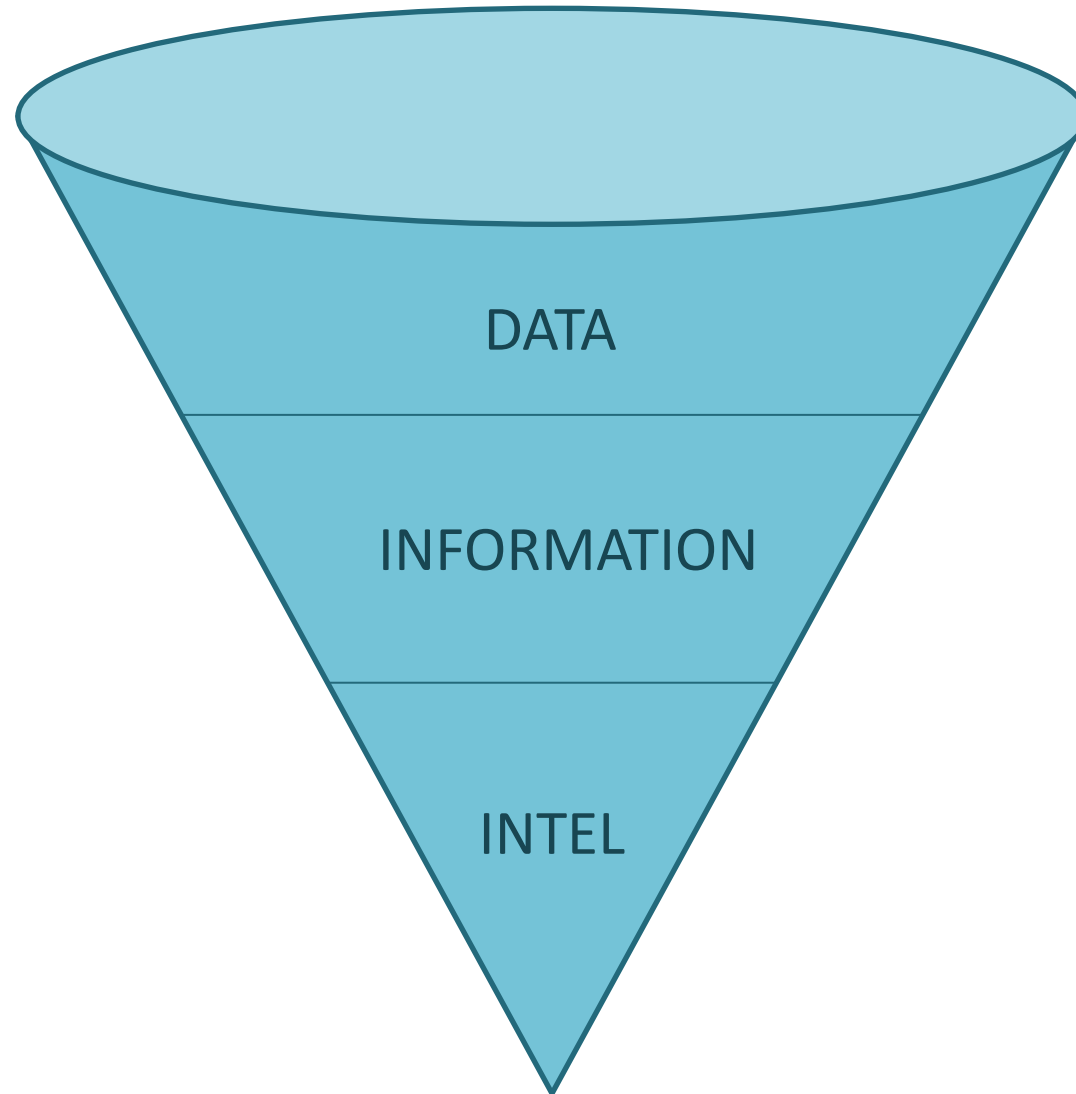

“Threat intelligence is evidence-based knowledge, including context, mechanisms, indicators, implications and action-oriented advice about an existing or emerging menace or hazard to assets. This intelligence can be used to inform decisions regarding the subject’s response to that menace or hazard.”

Gartner

Data vs information vs intelligence
