What Do Open APIs Mean For FIS?

Banks are able to innovate faster, offer a more customized user experience, develop new product and services, gain greater efficiency, and create new lines of business.

Bank Developers are able to learn how to integrate, develop, and test in a more intuitive and rapid manner. Integration timeline and effort is reduced.

FIS | CODE CONNECT™

Bank Customers are able to receive greater capabilities quicker with a more tailored experience.

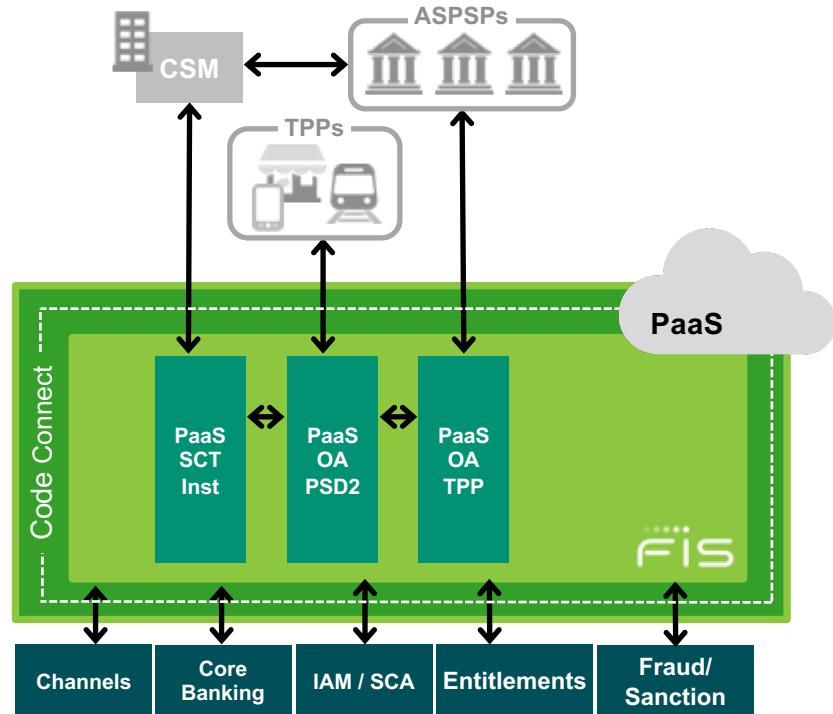

3rd Parties integration is made easier allowing banks to provide a unique, differentiated experience from the competition. Banks may also power Fintechs with banking capabilities, creating new sources of revenue.

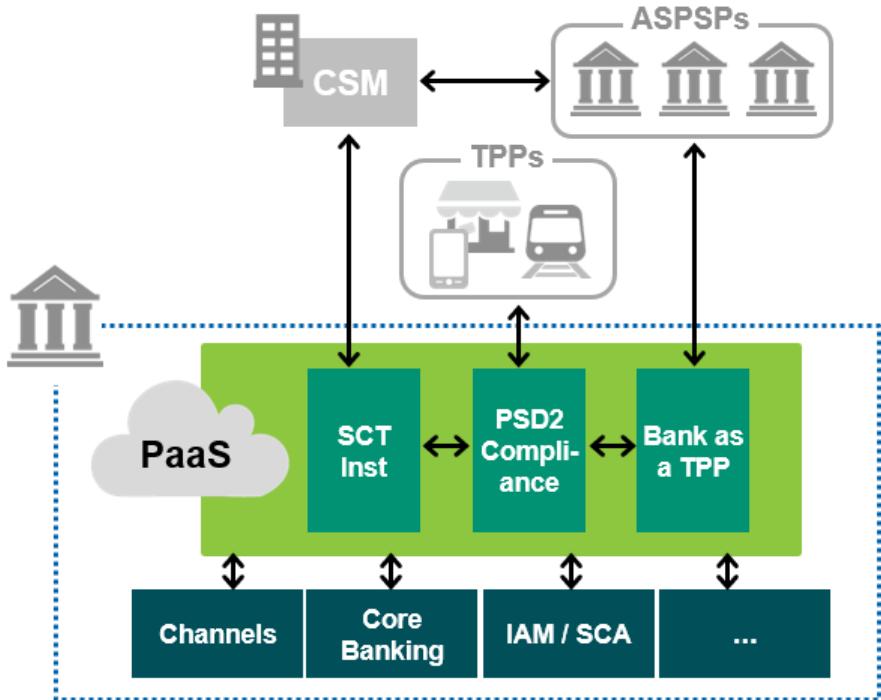

Corporate Businesses Clients are able to deepen their integration with banks, resulting in increased retention.

FIS PaaS – Overview

- 3 Services:
 1. PSD2 compliance (bank)
 2. SCT Inst
 3. TPP enablement
- FIS Code Connect (WSO2) is the FIS API Gateway
- Standard integration points (REST API)
- Solution hosted by Sungard (FIS) and Azure (Microsoft)

FIS PaaS overview

- Software-as-a-Service solutions for
 - **SCT Inst** initiation and reachability
 - **PSD2 X2A compliance**
 - **Bank-as-a-TPP** (TPP Enablement)
- Ideal for a “fast-follower” strategy
- **Low upfront investment:** attractive in times of revenue uncertainty
- Turn-key solution for **rapid readiness** in the face of ticking regulatory clock
- Deals with the lack of harmonised European-wide API standards
- Removes the thorn of keeping up with changing standards and rulebooks
- Frees up resources to **focus on key business**

IGEA BANCA INTRO

Profile of IGEA Banca

Banca commerciale nata nel Dicembre 2015, con sede legale a Roma

Quattro filiali tradizionali e un «distretto digitale» per attività di R&S

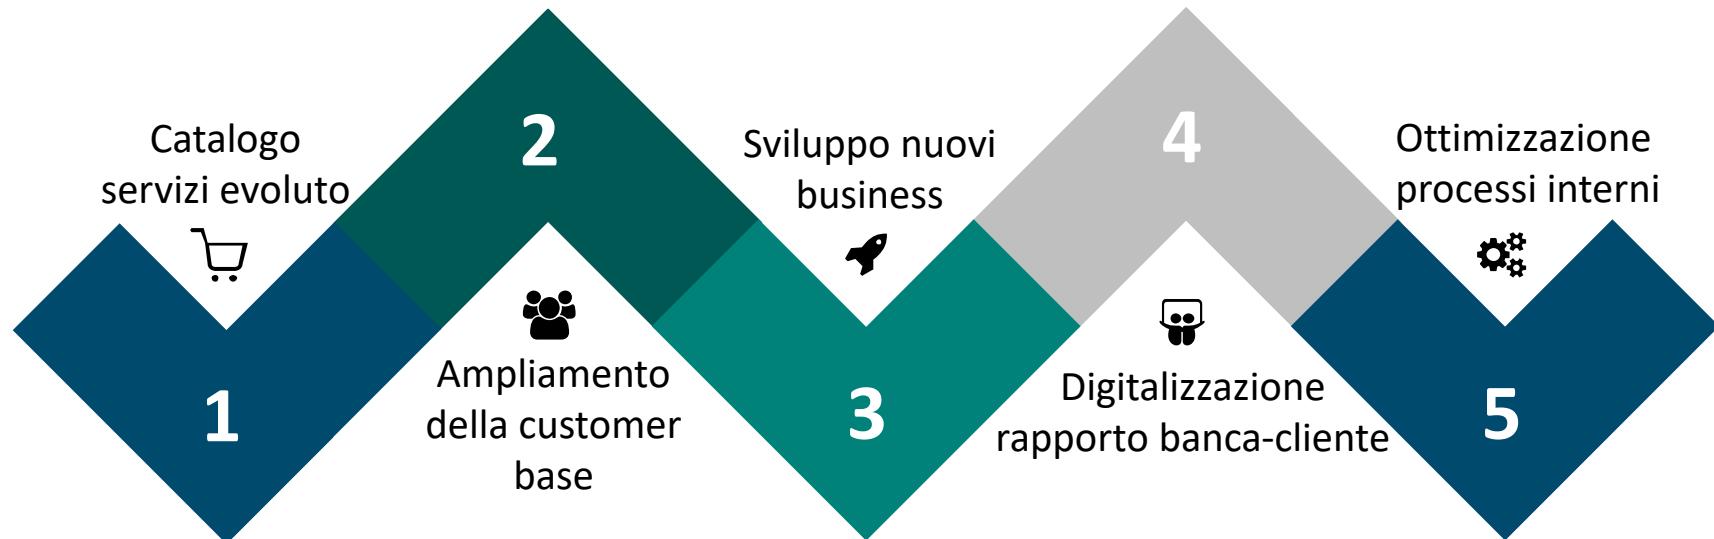

Specializzata nel digital lending rivolto a PMI e Liberi Professionisti

Approccio distributivo multicanale, basato principalmente su una piattaforma proprietaria quale strumento di on-boarding

IGEA Banca Strategy in Digital Banking

La vocazione per il digitale ci spinge a cogliere le sfide più innovative del contesto attuale aprendoci al mondo Fintech.

La configurazione come PISP e AISPs ci consentirà di definire un'offerta di servizi ad alto valore aggiunto, da rivolgere principalmente a PMI e Liberi Professionisti.
