

Cybersecurity outlook in Italy , Spain and Brazil

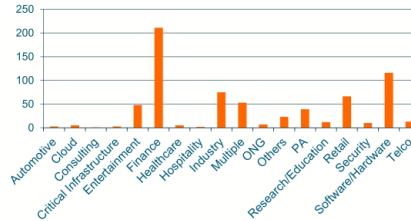

@domenicoraguseo

May 2023

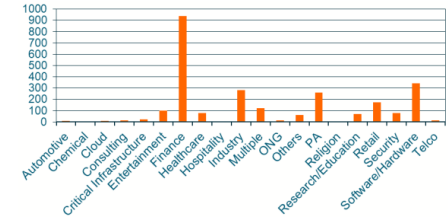

Cybercrime in Finance

Numero di attacchi, incidenti e violazioni privacy nel 2022 in Italia per Industria

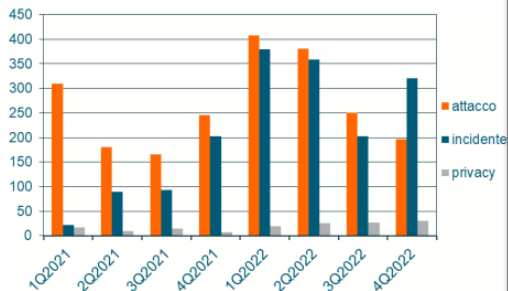

Numero di attacchi, incidenti e violazioni privacy nel 2022 in Spagna per Industria

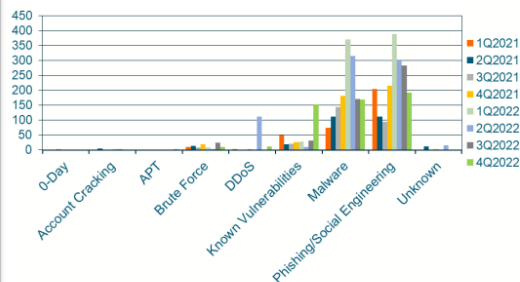

Numero di attacchi, incidenti e violazioni privacy nel 2022 in Brasile per Industria

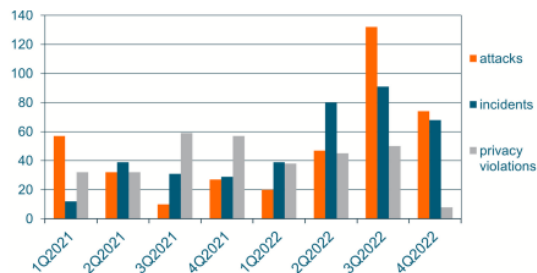

Attacks, Incident and Privacy Violations

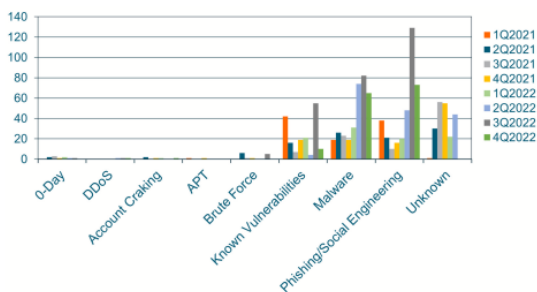

Numero di attacchi, incidenti e violazioni privacy nel 2021, 2022 in Italia

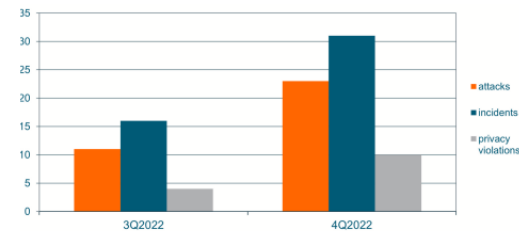

Tecniche di attacco relative ad attacchi, incidenti e violazioni privacy nel 2021, 2022 in Italia

Number of attacks, incidents and privacy violations divided by months in Spain 2021, 2022

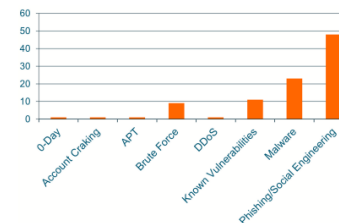

Attack techniques of attacks, incidents and privacy violations in Spain 1Q2021, 2Q2021, 3Q2021, 4Q2021, 1Q2022, 2Q2022, 3Q2022 and 4Q2022

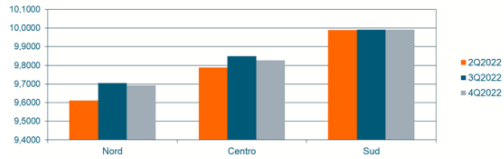

Number of attacks, incidents and privacy violations divided by quarter in Brazil 3Q2022 and 4Q2022

ATTACK TECHNIQUES

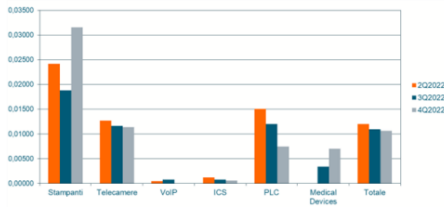

Attack techniques of attacks, incidents and privacy violations in Brazil 3Q2022 and 4Q2022

Attacks surface

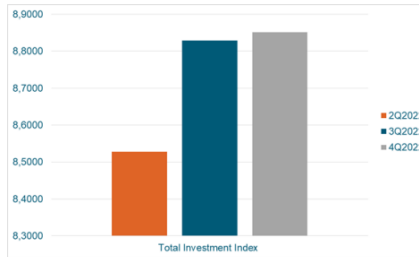

Investment Index per Area Geografica

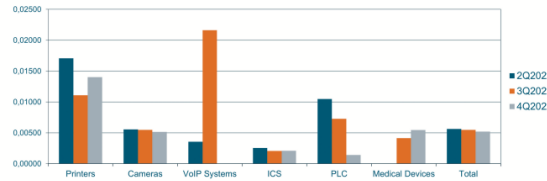

Unsecurity IoT Index per dispositivo

patent pending

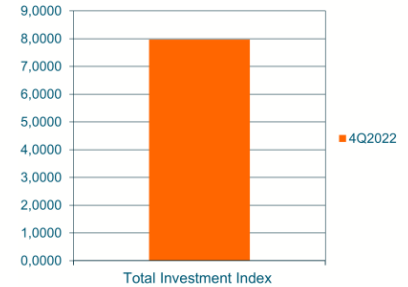

Total Investment Index in Spain 2Q2022, 3Q2022 and 4Q2022

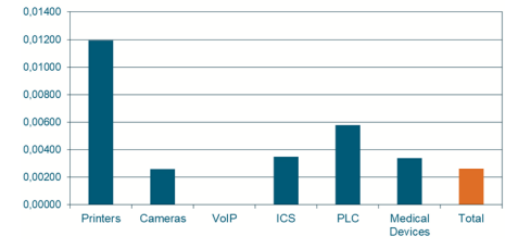

Unsecurity IoT Index by Device 2Q2022, 3Q2022 and 4Q2022

patent pending

Total Investment Index in Brazil 4Q2022

Unsecurity IoT Index by Device 4Q2022

patent pending

What we see for the future

- Attack Surface is increasing: must be reduced with proper identities, Access and Asset Management
- Costs are increasing: automation needs to be introduced in cybersecurity control SIEM, SOAR, UEBA, Continuous Surface Monitoring, VAPT
- Attackers are using new technologies, defender must use new technologies
- Awareness

Domenico Raguseo
Head of CyberSecurity Exprivia

Cyber security 2023, per difendersi è cruciale la gestione degli asset
